

Module 1 Activity 4: Working with Lists

Purpose:

Explore the functionality of lists.

Part 1 Instructions:

1. Create a list of the days of the week
2. Print only the days "Sunday" and "Monday"
3. Print only the day "Wednesday"
4. Modify the day "Wednesday" to read "Wed."
5. Print "Wed."

Part 2 Instructions:

1. Create a list with the days "Sunday", "Tuesday", "Wednesday"
2. Add "Thursday" to the end of the list
3. Put "Monday" after "Sunday" and before "Tuesday"
4. Print the resulting list
5. Create a new list with the days "Friday" and "Saturday"
6. Combine the two lists together and print the result

Part 3 Instructions:

1. Create a list of the days of the week
2. Print only the weekdays
3. Print only the weekends
